

ICCSPA'26

*The 7th International Conference
on Communications, Signal
Processing, and their
Applications*

15-18 JUNE

UNIVERSIDAD
DE ALCALA

Universidad
de Alcalá

The seventh International Conference on Communications, Signal Processing, and their Applications (ICCSPA'26) will provide a venue for academics and practitioners in the area of communications, networking, and signal processing to present and discuss their latest scholarly work.

The conference will be held in Alcalá de Henares (Madrid), Spain, between 15-18 June 2026. Besides contributed papers in 4 tracks, the program will include keynote presentations, panel discussions, talk by industry professionals, tutorials, and student poster sessions. Social events will provide the opportunity for professional networking.

Submission via EDAS: <https://edas.info/N34217>
